Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Wednesday 22 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Increasing cloud. Patchy rain spreading east.

This Evening and Tonight:
Staying cloudy throughout the night, with further outbreaks of rain and drizzle during the evening. Turning drier towards midnight before thickening cloud arrives close to dawn with drizzle chiefly across the hills. Largely frost free. Minimum temperature 2 deg C (36 deg F).

Thursday:
A largely cloudy morning, with a little light rain, mainly over the hills. Rain turning more persistent into the afternoon before clearing to the north and east. Mild and breezy. Maximum temperature 11 deg C (52 deg F).

Outlook for Friday to Sunday:
Cloudy Christmas Eve, with the risk of some rain. Turning colder Christmas Day, perhaps with a little hill snow. Sunny spells and rain, wintry over high ground on Boxing Day.
